

LITHIUM EP 2 M GREASE

DESCRIPTION: LITHIUM EP 2M GREASE is high quality multi-purpose lithium base grease blended from solvent refined oils and incorporate multi-functional extreme pressure additives as well as corrosion and oxidation inhibitors. This product is then fortified with Moly. It is suitable for operating temperatures between -30 °C and 130 °C.

SPECIFICATION: LITHIUM EP 2M GREASE exceeds performance level of SABS specification 1851

APPLICATION: LITHIUM EP 2M GREASE are designed for use in highly loaded plain and roller bearings as well as for shock loading conditions in steel mills and in CV joints. It is suitable for use in a full range of bearing speeds. The smooth consistency makes these greases ideal for use in centralized lubrication systems and they can be used on ferrous and non-ferrous metals.

CHARACTERISTICS:

Thickening Agent	Lithium
NLGI Classification	2
Work penetration at 25 °C	265-295
Drop point °C	190
Timken OK load Kg	33
Base Oil Viscosity at 40 °C	200
Colour	Grey black
Water Washout	<5%
Recommended Temp Range	-30 °C to 130 °C
